

# **Junior Business Analyst – Student Opportunity**

## **About the job**

ASEE Solutions is looking for proactive Business Analyst who will work in dynamic BA team and cooperate with software developers and technical account managers in our Security&Compliance department.

The position is available in our offices in Rijeka or Zagreb, Croatia.

### **Why is this job exciting?**

- We are working on modern solutions in the field of banking and fintech industries for some of the biggest players and banks in the region and worldwide
- Team focuses on successful realization of enterprise and mobile applications with high level of quality and customer satisfaction
- Strong mentorship and support from more experienced team members
- No two assignments are ever the same.

### **What are the key challenges and goals?**

- Determine client and end-user objectives by studying business functions, gathering information, evaluating output requirements and formats
- Create and present business, functional, and technical specification for the solution
- Define project requirements, identifies project phases and deliverables
- Support product development by analysing regulatory environment, technical prerequisites and market technical developments
- Prepare technical reports by collecting, analysing, and summarizing client requirements
- Support the sales and presales teams by serving as a technical and functional subject matter expert

### **We are looking for someone who has:**

- Final-year Bachelor or Master's student (or recently graduated) in Computer Science, Information Technologies, or related field
- Advanced knowledge of English language, allowing fluent communication and writing documentation
- Good analytical and problem-solving mindset
- Experience within ICT industry as Business Analyst or as developer is an asset
- Ability to work as a member of team that may include remote peers
- Strong orientation towards customers, focus on identifying and exceeding their needs
- Team-oriented, proactive, and eager to learn.

### **What do we offer?**

- Paid student engagement with flexible working hours to fit your class schedule
- Opportunity to gain experience in a professional IT environment
- Structured mentorship and support from experienced colleagues
- Access to internal knowledge-sharing sessions and events
- Possibility of full-time employment upon graduation.
